Initial look at that the Electronic Submission Process for Multi-Project Applications Webinar

This webinar is designed for investigators and administrators who are considering submitting grant applications in response to funding opportunity announcements (FOAs) for multi-project applications that require electronic submission. Also it will instruct applicants how to develop, submit, and track a multi-project application on-line using the new ASSIST (Application Submission System & Interface for Submission Tracking) tool. NIH experts will show applicants how to set up their application; navigate the system; set access controls to allow people to work concurrently on the application; run a check against NIH and Grants.gov business rules to find errors; and view an application image before submitting.

Hosted By: UMBC Office of Sponsored Programs

Date: December 13, 2012

Time: 1:00PM –3:00PM

Location: ENG023

***Light refreshments will be provided.
Please join us for an informative session.***

Space is Limited

RSVP by December 11th
